And everyone thinks hes crazy.... Most slum kids never go far, certainly not becoming a level 10 linesman like Ean. Even if hes part of a small and unethical cartel, and the other linesmen disdain his self-taught methods, hes certified and working. Then a mysterious alien ship is discovered at the edges of the galaxy. Each of the major galactic powers is desperate to be the first to uncover the ships secrets, but all theyve learned is that it has the familiar lines of energy and a defense system that, once triggered, annihilates everything in a 200 kilometer radius. The vessel threatens any linesman who dares to approach it, except Ean. His unique talents may be the key to understanding this alarming new force and forever reconfiguring the relationship between humans and the ships that serve them.
