

Necronomicon (Gothic Dreams)

The Necronomicon the Book of the Dead what horrors lurk inside, whispering malevolently as the secrets try to creep out Master of weird horror H.P. Lovecraft famously mentioned the mysterious fictional Necronomicon in some of his stories, with no more than a few cryptic references to it, and he inspired other authors, such as August Derleth, to incorporate the grimoire into their own works. Thus this notorious book, featuring arcane text and histories of the terrible gods that stalk these writers works, has taken on a life of its own. In this exciting new book, punchy text describes how fantasy art, literature and movies have been influenced by this dangerous tome, accompanied by powerfully atmospheric artworks.
