

The Collected Stories of Ray Bradbury: A Critical Edition Volume 2, 1943-1944

Ray Bradbury spent decades refashioning many of his early pulp and mainstream magazine stories to form the intricate story-cycle tapestries of *The Martian Chronicles* and *Dandelion Wine*; other tales were revised or rewritten for such timeless collections as *Dark Carnival*, *The Illustrated Man*, *The Golden Apples of the Sun*, and *The October Country*. These volumes represent wonderful and enduring fictional masks for the author, but they are not his original masks. The *Collected Stories of Ray Bradbury* series returns to the earliest surviving forms of his oldest published tales, presenting many of them in versions not seen since the 1940s and early 1950s, when the Golden Age of the American magazine began to pass into history. The restoration of these texts is a scholarly enterprise, including searches through long-lost typescripts, hundreds of elusive magazine issues, and thousands of textual variants, seeking to restore the author's earliest intentions for his first published stories. Jonathan R. Ellers' textual commentaries document the history of the composition and publication of the stories and Bradbury's emerging understanding of genre fiction from their original forms to the versions best known today. The second volume of the series includes twenty-five stories written between April 1943 and March 1944, and it contains eight stories that Bradbury never placed in his own story collections. These tales document an incredibly productive year that saw the twenty-three year-old writer move ever closer to becoming a masterful teller of timeless stories. For many of them, the original serial forms recovered in this volume differ significantly from the versions Bradbury popularized in his subsequent collections. For three of these stories, the original typescripts survive, making it possible to establish the critical text directly from the author's unstyled spellings and punctuation.

By documenting the way the stories evolved over time, Eller reveals crucial new information about Bradbury's maturing creativity and poetic prose style. The Collected Stories of Ray Bradbury is edited in compliance with the highest scholarly standards by the Center for Ray Bradbury Studies and bears the Modern Language Association's seal of approval for scholarly editions. Each volume includes a general introduction, biographical timeline, summary of unpublished stories, historical commentaries for each story, textual apparatus, and a chronological catalog.
